ELSEVIER

Applied Acoustics 58 (1999) 485–486

applied acoustics

Contents of Volume 58

Number 1

1 Modelling of sound fields in enclosed spaces with absorbent room surfaces. Part I: performance spaces
S. M. DANCE & B. M. SHIELD (UK)

19 Numerical calculation for determining sonar self noise sources due to structural vibration
T. MUSHA & T. KIKUCHI (Japan)

33 Relations between rapid speech transmission index (RASTI) and other acoustical and architectural measures in churches
A. P. O. CARVALHO (Portugal)

51 Dynamic stiffness as an acoustic specification parameter for wall ties used in masonry cavity walls
C. HOPKINS, R. WILSON & R. J. M. CRAIK (UK)

69 Control of shear cutting noise—effectiveness of enclosures
J. C. S. LAI, C. SPEAKMAN & H. M. WILLIAMSON (Australia)

85 The implication of using remote sensors in active control of higher order acoustic duct modes
T. M. CHAN (Hong Kong) & S. J. ELLIOTT (UK)

95 Calendar

97 Announcements

Number 2

99 A just noticeable difference in C_{50} for speech
J. S. BRADLEY, R. REICH & S. G. NORCROSS (Canada)

109 Numerical decoupling analysis of a resonator with absorbent material
C.-N. WANG (Taiwan)

123 Road traffic noise prediction model in Thailand
T. SUKSAARD, P. SUKASEM, S. MONTHIP TABUCANON, I. AOI, K. SHIRAI & H. TANAKA (Thailand)

131 The vibroacoustic response of a cylindrical shell structure with viscoelastic and poroelastic materials
S. BOILY & F. CHARRON (Canada)

153 The effectiveness of screens in an urban area
E. WALERIAN, R. JANCZUR & M. CZECHOWICZ (Poland)

173 A discrete wave number transform approach for predicting pressure levels due to a line source radiating over two dimensional multi-layered materials
S. RIGOBERT, F. SGARD & C. BOUTIN (France)

195 Impulse response of a density contrast wedge: Practical implementation and some aspects of its diffracted component

© 1999 Elsevier Science Ltd. All rights reserved.

J. C. NOVARINI & R. S. KEIFFER (USA)

211 Vibroacoustic characteristics of ultrasonic cleaners
J. O. KIM, S. CHOI & J. H. KIM (South Korea)

229 Calendar

231 Announcements

Number 3

233 Special editorial on technical notes

235 Acoustical characteristics of leak signals in plastic water distribution pipes
O. HUNAIDI & W. T. CHU (Canada)

255 Comparison between theoretical and empirical models for elastic porous materials
N. VORONINA (Russia)

261 Estimation of scattered sound field via nearfield measurement by source methods
G.-P. J. TOO & T.-K. SU (Taiwan)

283 Autoregressive integrated moving averages (ARIMA) modelling of a traffic noise time series
K. KUMAR & V. K. JAIN (India)

295 An empirical model for rigid-frame porous materials with low porosity
N. VORONINA (Russia)

305 The prediction of reverberation time using neural network analysis
J. NANNARIELLO & F. FRICKE (Australia)

327 Effect of the rockwool bulk density on the airborne sound insulation of lightweight double walls
A. URIS, A. LLOPIS & J. LLINARES (Spain)

333 Development of standardized impact sources for laboratory measurement of sound transmission through lightweight walls
S.-P. HUANG, K.-T. CHEN & R.-P. LAI (Taiwan)

351 The combined effects of porous asphalt surfacing and barriers on traffic noise
G. R. WATTS, S. N. CHANDLER-WILDE & P. A. MORGAN (UK)

379 Calendar

383 Announcement

Number 4

385 Effects on roadside noise levels of sound absorptive materials in noise barriers
G. R. WATTS & N. S. GODFREY (UK)

403 Numerical simulation and experimental tests of multilayer systems with porous materials
S. N. Y. GERGES & A. M. BALVEDI (Brazil)

419 A model to describe the behaviour of a laterally radiating piezoelectric loudspeaker
P. LOTTON, M. BRUNEAU (France), Z. ŠKVOR (Czech Republic) & A.-M. BRUNEAU (France)

443 Characterisation of sound pressure levels produced by crackers
O. SHARMA, V. MOHANAN & M. SINGH (India)

451 A method for the parametric frequency sensitivity of interior acousto-structural coupled systems
F. SCARPA (UK) & G. CURTI (Italy)

469 Prediction of noise emission from power plant by a mathematical model
K. LERTSAWAT, S. TANGJAITRONG & P. AREEBHOL (Thailand)

479 Calendar

483 Announcement
